Intro Duction

Design is the Silent Ambassador of Our Company

Casa Steel Structures is a company which provides steel designing services for both commercial and non-commercial building structures. Our company Casa Steel Structure was established in Calicut in the year 2009. Our branches are located in Cochin, Chennai, Bangalore, and Doha.

We are one of the leading steel manufacturers as well as we do pre-engineered metal buildings and fabricated panel mounting systems. Our team has years of experience and so we develop high-quality and cost-effective infrastructure.

We undertake works from conceptual design, detailed structural design to complete execution. Our experts are specialized in making a creative design in many styles based on the client's requirements.

Managing Director

Casa Steel Structures Company is a partnership firm which is managed by a professional team. Our company is aiming to be one of the leading players in the steel industry with its existing products and innovative approaches.

Our only motto is the customer satisfaction so we are committed towards that. We also consider our employees for operating the company with high standards of performance, reliability, and safety. In recent years we are the competitive company for other steel industry and this possible because of our expertise and motivated team. Also, we are very conscious about to follow the environment and safety regulations to save the welfare and development needs of the society.

Mohammed Rafi.CH

Vision

Our Vision to become a leader EPC solutions for Industrial and commercial projects. Globally with core values of providing the customers with high quality products at competitive prices, to make casa as pioneer in Turnkey solutions provider.

Mission

Our mission is to provide the quality products and services for the clients regardless of their size of infrastructure. Our company's dedicated team helps our company to maintain the existing companies and meet our customer needs to fulfill their dream. Also, our team enhances the trust of customers with us through excellent performances.

COMPANY POLICY

Casa Steel Structures Company always adheres to its strict company policies to ensure that our employees are working in a safe workplace that provides them the satisfaction of work as well as equal opportunity to thrive.

QUALITY POLICY

Stronger

As steel is the essential material for a building, so we make use of the stronger and more durable steels rather than using low-cost materials.

Faster

Our company professionals work in a dedicated manner to complete the given project at the right time. So customers can get their steel structures with on-time delivery.

Flexible

The steel structures framed by our company are self-supporting with its greater strength of steel.

Meet the customer requirements

Our company's customer relationship team deals with the project in a client-friendly manner.

Environment-friendly material

The materials used in steel structures are said to green or eco- friendly building as they are mostly made of recycled materials.

HSE POLICY

Casa takes pride in following strict health, safety, and environmental policy all along the different stages of design, manufacture, and supply of its building systems. We also ensure that we use state-of-the-art technology and equipment to stand out from our competitors and earn customer satisfaction.

Services Offered.

△ **Pre-engineered Steel Building**

△ **Space Frames**

△ **Conventional Truss Works**

△ **Steel Fabrication And Erection**

△ **Arch Span Roofing**

△ **Tensile Fabrics**

△ **Turnkey Projects**

△ **Multi-storied Steel Buildings**

Area We Covered

Factories

Commercial Showrooms

Hypermarkets

Office Buildings

Warehouse / Godowns

Convention Halls

Workshops

Labor Camps

Distribution Center

Aircraft Hangers

Restaurants

School Buildings

Exhibition Halls

Sports Halls

Transport Terminals

Parking Buildings

Cold Storages

Multi-storied Steel Buildings

Low initial cost comparatively to RCC work.

Fast construction

Providing Maximum Accuracy

Less Transportation Cost

Any Structure, Shape, Span & Loading

Optimized Minimum Mass Design

Eliminates The Requirement Of Mid-columns

High Load-bearing Capacity

Light And Structurally Effective

Advantages

MAN POWER

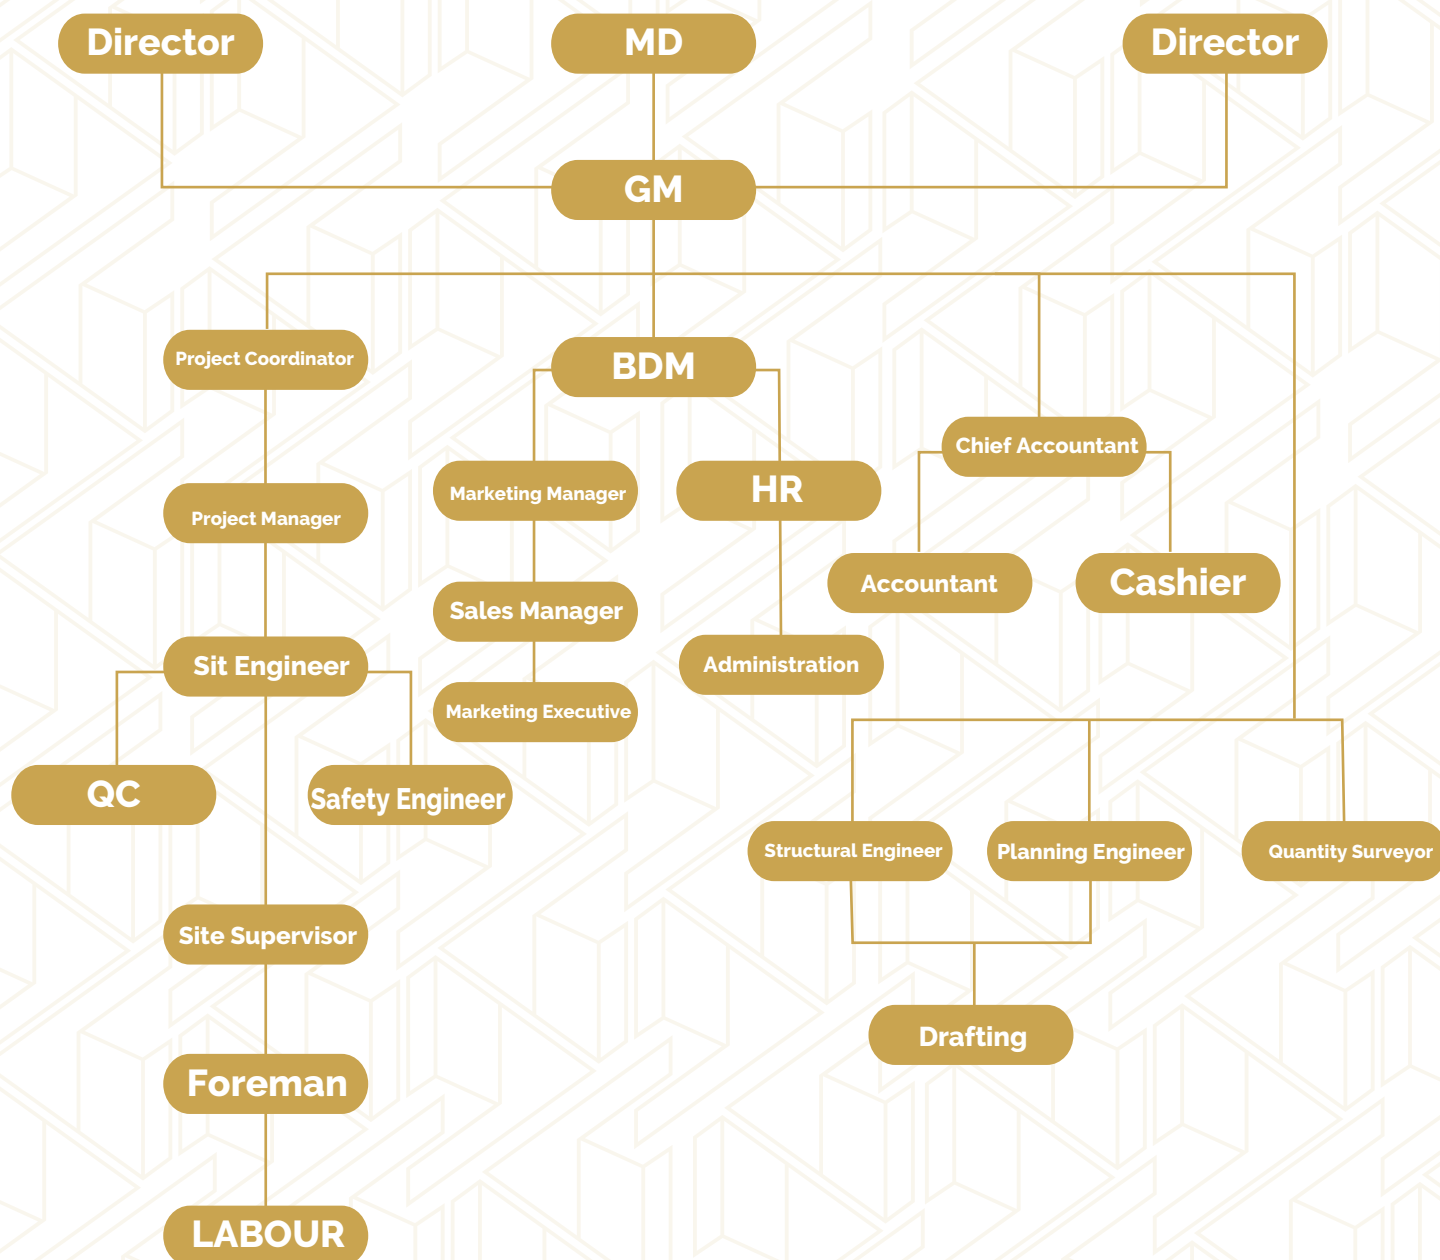

Technical Employees

1. Project Manager	03
2. Structural engineers	02
3. Civil engineers	12
4. Mechanical engineers	03
5. Site supervisors	16
6. Drafting Staff	06
7. Administration staff	07

Other Employees

1. Foreman	16
2. Fabricators , erectors	110+
3. Welders	30+
4. Helpers	50+
5. Painters	20
6. Maintenance staff coordinator	10

OUR TEAM Structure

PLANT

Production Unit
50000 sqft

Corporate Office (Kottakkal)
2500 sqft

Machinery And Equipment

1. CNC plasma cutting machine
2. Shearing and Straightening Machine
3. Tack weld
4. Pull through welding machine
(Automatic submerged arc welding machine)
5. Tig / Mig Welding Machine
6. CNC press break machine
7. Copper blasting facility / sand blasting facility
8. Polyurethane, Epoxy and Enamel Painting Facilities
9. Metal Roof Sheet Forming Machine
10. Decking Sheet Forming Machine
11. Cold Rolled Purline Making Machine
12. Accessories
